

WORKSHOP

Digital Implant Dentistry: From Planning to Restorative

Dr. Caleb Kim DDS, MMSc, FACP

**May 18
2025**

**MegaGen America
Fair Lawn, NJ**

Learning Objectives:

This seminar provides dental professionals with fundamental concepts and important clinical techniques discussing the application of currently available digital technology to implant dentistry. Join us for this 3-hour CE course that will highlight the advantages of digital dentistry that will help your daily implant treatment from planning to restorative.

Course Objectives:

- Review digital armamentariums for implant dentistry
- Understand the application of a digital intra-oral scanner in daily dental practice
- Understand the key concepts and steps of digital implant planning with 3D CBCT images and digital impressions
- Understand the clinical steps in restoring dental implants with digital technology
